

ARCO

COFFEE TABLE

Designer – Rüyâ Akyol

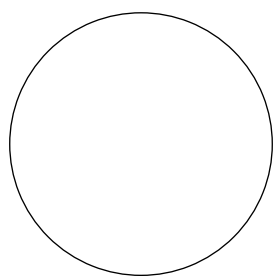

The Arco Coffee Table serves as a bridge between cultures, weaving together the rich tapestry of history and contemporary aesthetics. Inspired by the graceful curves of traditional Turkish bow, the table's legs evoke a sense of heritage. Precisely crafted, they reflect the elegance and strength of these archaic weapons. The Arco is a harmonious combination of lightness and strength. Its delicate lines conceal the robustness of its supporting structure. Like a skilled archer, it balances grace with unwavering stability.
